## **Introduction**

Cobb County Veterans Accountability and Treatment Court (VTC) seeks to divert eligible veteran defendants with substance dependency and/or mental illness that are charged with felony criminal offenses, to a specialized criminal court. The court substitutes a treatment problem solving model for traditional court processing. Veterans are identified through evidence based screening and assessments. The veterans voluntarily participate in a judicially supervised treatment plan that a team of court staff, veteran health care professionals, veteran peer mentors, and health care professionals develop with the veteran. At regular status hearings, treatment plans and other conditions are periodically reviewed for appropriateness, incentives are offered to reward adherence to court conditions, and sanctions for non-adherence are handed down. Completion of their program is defined according to specific criteria. Many will have their charges dismissed upon successful completions and others are assured of a non-incarcerative sentence upon completion.

Many veterans are known to have a warrior's mentality and often do not address their treatment needs for physical and psychological health care. Often those who are referred to the VTC are homeless, helpless, in despair, suffering from alcohol or drug addiction, and others have serious mental illnesses. Their lives have been spiraling out of control. Through this program, the veteran is offered the opportunity to regain stability in their lives, to have their families strengthened, to have housing for the homeless, and to have employment for the employable.

## **Our Program Mission**

To successfully habilitate veterans by diverting them from the traditional criminal justice system and providing them with the tools they need in order to lead a productive and law-abiding lifestyle.

## **Our Program Goal**

To increase public safety by reducing recidivism; provide better alcohol and drug treatment through the VA; turn tax burdens into tax payers; and provide intensive case management and structure to the veteran participants.

## **Mentor Program**

An essential part of VTC is the addition of volunteer mentors as part of the support team that encourages, guides and motivates mentees to complete the 18 month treatment program for physical, psychological and substance abuse conditions stemming from their military service.

A properly trained and engaged mentor will develop active and supportive relationships with the mentee and will increase their chances of recovery and significantly reduce recidivism.

### **Mentor Mission**

Cobb County Veteran Mentor Program ensures every participating veteran in VTC has a fellow veteran acting as a mentor, advocate and ally through the 18 month program.

### **Mentor Goals and Objectives**
